# VISITING YOU...

**BodyWorks on Tour** is a new outreach programme about our amazing bodies. These engaging science shows, interactive workshops and amazing exhibits are the perfect complement to the **Curriculum for Excellence** science and health & wellbeing outcomes. There is an experience available for all ages:

## Nursery

**Packages from £275+VAT**

Choose from one of our hands-on workshops:

**Sniff, Look and Listen (N1-N2)** – Make sense of our senses with a smell trail, touchy feely task and more!

**Animal Bites (N1-N2)** – Discover the difference between our teeth and those of animals. How do we keep our teeth healthy?

## Primary

**Packages from £375+VAT**

Create your own tailor made package by combining an engaging interactive exhibit session (P1-S2) with one of our science shows:

**Sniff, Look and Listen (P1-P3)** – Make sense of our senses through exciting investigative activities.

**Know Your Gnashers (P2-P4)** - Discover what our teeth do and how to keep them healthy.

**Blood, Bile and Body Bits (P4-S2)** – Delve inside the human body to find out how your organs work in this gory, gloopy show.

**Game On - The Science of Sport (P4-S2)** – Find out about the effects of sport and exercise on the body, investigate types of fitness and what makes a top athlete.

## Secondary

**Packages from £375+VAT**

Create your own tailor made package by combining an engaging interactive exhibit session (P1-S2) with one of our science shows:

**Meet the Gene Machine (S3-S6)** – This lively discussion event is designed to stimulate debate about the ethical implications of advances in medical genetics.

**Who Wants to be a Scientist? (P7-S2)** – featuring spectacular demonstrations, this interactive show highlights the importance of science and links physics, chemistry and biology to careers.

**Blood, Bile and Body Bits (P4-S2)** – Delve inside the human body to find out how your organs work in this gory, gloopy show.

**Game On - The Science of Sport (P4-S2)** – Find out about the effects of sport and exercise on the body, investigate types of fitness and what makes a top athlete.

## Thirst for Knowledge?
