

# GE CALEDONIAN

**About GE Caledonian** - We are part of GE Aviation, which builds fantastic products using leading edge technology combined with innovative techniques to manufacture products such as the new GENX engine pictured above. Caledonian will be the first facility in the world capable of overhauling the new GENX Engines.

## What we can offer -

Here at GE Caledonian, we can offer a tailored experience for your pupils. The general format for a visit to our site would include:

- Introduction to GE Caledonian
- Shop Tour
- Technical presentation to suit current curriculum & age group
- Selected activities such as NDT techniques
- Final presentation

Please contact us using the details listed on this flyer for more information to arrange a visit.
